

PRICES - EPOXY FOR KITCHEN TABLE SURFACES

From 150 EUR per m²
3m² length - depth 60cm starting from 500 euros
The thickness of the epoxy pouring layer is 3-4 mm
With all my raw materials, materials and labor.

Prices - for solid wood tables

Available wood for tables Osis and Elm 5cm - 3 meters

Consumption of epoxy on the table - an example

300 cm length*5 cm thickness*width of the pouring column 30 cm.
Epoxy consumption $300*5*30=4500/1000= 45\text{kg}$ *23.00 euros (price includes epoxy + hardener
Price for epoxy 1035 euros.

One processed board 28-33cm wide, 5-4.5cm thick and 3m long, price per piece 40 euros.

Legs can be ordered or purchased, as desired by the customer.

And work times 1.5 of the total material cost.

In this case, if you want a kitchen table 3 m long with an epoxy column 30 cm wide and two boards 28-33 wide and 5 cm thick.

Width average 90x300x5 price (epoxy 45L 1035)+80 two treated boards X1.5 included (labor, electricity and all material consumption). The price of the table legs is separate and not included.

Total amount per table $1115+(1115*1.5)=1115+1672=2787$ Euro

Work from 3-4 weeks, depending on the workload.

Calculate the dimensions of your own table and let us know.
